

MUBAS POSTGRADUATE PROGRAMMES CALL FOR APPLICATIONS SEPTEMBER 2026 INTAKE

The Malawi University of Business and Applied Sciences (MUBAS) is pleased to invite eligible candidates to apply for admission into its Postgraduate Programmes.

APPLICATION METHOD

Email your application along with accompanying documents to:

applications-postgraduate@mubas.ac.mw

THE CLOSING DATE FOR RECEIVING APPLICATIONS FOR THE SEPTEMBER 2026 INTAKE IS SUNDAY 31ST MAY 2026

IMPORTANT!!

➤ *Application fees **MUST** be remitted to the following bank account;*

Account name: Polytechnic Revenue
Bank: National Bank, Chichiri Branch
Account number: 737461
Swift Code: NBMAMWMW

For enquiries contact the Postgraduate Studies Office: +265 999 640 129 or
Email: head-postgraduate@mubas.ac.mw; postgradcoordinator@mubas.ac.mw ;
admin-postgraduate@mubas.ac.mw

APPLICATION PROCEDURE FOR PhD APPLICANTS

A complete PhD application package **MUST INCLUDE:**

- i. Proof of payment of the application fee (A non-refundable application fee of **MK30,000** for Malawian applicants and **US\$60.00** for international applicants)
- ii. Completed PG programmes application form.
- iii. Certified copy of academic transcript/ academic record.
- iv. Certified copies of relevant certificates.

- v. A sample of the applicant's written academic work (journal papers, books, conference papers, conference reports, etc).
- vi. Abstract of master's degree research study.
- vii. A concept note relating to the proposed research of **not more than five (5) pages** (topic, introduction, problem statement, research objective, preliminary literature review, methodology, and references).
- viii. Reference letters from two (2) traceable referees (one academic and one professional)
- ix. Recent curriculum vitae.

APPLICATION PROCEDURE FOR MPhil APPLICANTS

A complete MPhil application package **MUST INCLUDE**:

- i. Proof of payment of the application fee (A non-refundable application fee of **MK30,000** for Malawian applicants and **US\$60.00** for international applicants)
- ii. Completed PG programmes application form.
- iii. Certified copy of academic transcript/ academic record.
- iv. Certified copies of relevant certificates.
- v. A concept note relating to the proposed research of **not more than five (5) pages** (topic, introduction, problem statement, research objective, preliminary literature review, methodology, and references).
- vi. Reference letters from two (2) traceable referees (at least one academic).
- vii. Recent curriculum vitae.

APPLICATION PROCEDURE FOR MASTERS DEGREE OR POSTGRADUATE DIPLOMA/CERTIFICATE APPLICANTS

A complete Masters programme or Postgraduate Diploma/Certificate application package **MUST INCLUDE**:

- i. Proof of payment of the application fee (A non-refundable application fee of **MK20,000.00** for Malawian applicants and **US\$60.00** for international applicants)
- ii. Completed PG programmes' application form.
- iii. Certified copy of academic transcript/ academic record.
- iv. Certified copies of relevant certificates.
- v. Reference letters from two (2) traceable referees (at least one academic).
- vi. Recent curriculum vitae.

SCHOOL OF BUILT ENVIRONMENT

1. DOCTOR OF PHILOSOPHY IN REAL ESTATE ^{New} - RESEARCH BASED

Applicants must have any of the following degrees: Masters degree in Real Estate, Quantity surveying, Civil Engineering, Land Surveying, Physical Planning, Architecture, Mechanical Engineering, Electrical Engineering or construction-related fields from an accredited university which must have included advanced learning in research, execution of a research project, and writing of a dissertation.

The programme is a 3-year full-time research degree offered on a **non-residential basis**.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$ 3,333.34 per year** to cater for tuition, supervision and thesis examination.

2. DOCTOR OF PHILOSOPHY IN CONSTRUCTION MANAGEMENT ^{NEW} RESEARCH BASED

Applicants must have any of the following degrees: Masters degree in construction-related fields including Quantity Surveying, Civil Engineering, Real Estate, Architecture, Land Surveying, Physical Planning, Mechanical Engineering, Electrical Engineering from an accredited university which must have included advanced learning in research, execution of a research project, and writing of a dissertation; Masters degree in any field that includes a dissertation related to construction management, along with an undergraduate degree in a construction-related discipline.

The programme is a 3-year full-time research degree offered on a **non-residential basis**.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$ 3,333.34 per year** to cater for tuition, supervision and thesis examination.

3. MASTER OF SCIENCE IN REAL ESTATE ^{NEW}

Applicants must have any of the following degrees: Bachelor of Science (honours) or Bachelor of Science in real estate, land economy, architectural studies, civil engineering, construction project management and any other relevant Built Environment qualification from accredited universities.

The programme is offered on a **block-release non-residential basis** and the duration is 2 years full time

The programme aim is to equip graduates with required real estate competencies for them to positively respond to local and international development agenda in real estate and constructional sectors. Among others, students will study the following courses: Real Estate Economics, Property Development, Property Finance and Investment Appraisal, Property and Facilities Management, Geospatial Analysis in Real Estate, Land Administration and Governance, Resettlement Plan and Management, Property Valuation, Real Estate Modelling and Forecasting, Agrarian and Environmental Change in Africa and Research Methods.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$2,750.00 per year** for domicile and SADC students and **US\$3,250.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

4. MASTER OF SCIENCE IN CONSTRUCTION PROJECT MANAGEMENT ^{NEW}

Applicants must have any of the following degrees: Bachelor of Science degree in Quantity Surveying, Architectural Studies, Civil Engineering, Construction Project Management, Law and any other relevant Built Environment qualification from accredited universities.

The programme is offered on a **block-release non-residential basis** and the duration is 2 years full time

The aim of the programme is to equip students with advanced knowledge in Construction Project Management to be applied in analysing problems and proposing solutions to the challenges facing infrastructure in Malawi, the SADC region and overseas. Among others, students will study the following courses: Fundamentals of Project Management, Construction Management, Sustainability in the Built Environment, Construction Law and Administration, Strategic Management for Construction, Facilities Management, Construction Financial Management, Project Procurement Systems, Health, Safety and Welfare in Construction, Value Management and Construction Economics.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$2,750.00 per year** for domicile and SADC students and **US\$3,250.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

5. MASTER OF SCIENCE IN ENVIRONMENT AND DEVELOPMENT

Applicants must have any of the following degrees: Bachelor of Science in Land Economy/ Real Estate, Geography, Environmental Studies, Development Studies, Community Development, Physical Planning, or any relevant built environment degree from an accredited institution of higher learning.

The programme is offered on a **non-residential** basis and the duration is 2 years full time

This is a multidisciplinary programme aimed at equipping students with an understanding of the complex link between environment and economic development in Malawi and across the globe. The following are some of modules: Theories and Practices of Development; Principles of Environmental Sustainability, Agrarian and Environmental Change in Africa, Sustainable Land Management, Natural Resources and Environmental Economics, Carbon Accounting and Market; Environmental and Social Impact Assessment; Environmental Governance and Policy; Gender and Environment; Disaster Risk Management; and Research Methodology.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$2,750.00 per year** for domicile and SADC students and **US\$3,250.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

6. MASTER OF SCIENCE IN LAND GOVERNANCE

Applicants must have any of the following degrees: Bachelor of Science in Land Surveying, Bachelor of Science in Physical Planning, Bachelor of Science in Land Economy, Bachelor of Laws, Bachelor of Arts in Development Studies, Bachelor of Science in Geography, Bachelor of Science in Land Management or any relevant built environment degree from an accredited institution of higher learning.

Candidates with a first degree and a pass in a field other than those specified in above must possess at least two years of experience in land governance

The programme is **non-residential** and the duration is 2 years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$2,750.00 per year** for domicile and SADC students and **US\$3,250.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

SCHOOL OF BUSINESS AND ECONOMIC SCIENCES

1. DOCTOR OF PHILOSOPHY (PhD) - RESEARCH BASED

- a) PhD in Entrepreneurship
- b) PhD in Strategic Management

Applicants must have a relevant Masters or MPhil degree from an accredited university.

The duration of the PhD programme is 3 years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$ 3,333.34 per year** to cater for tuition, supervision and thesis examination.

2. MASTER OF BUSINESS ADMINISTRATION – YEAR TWO

Applicants must have exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal. Successful applicants shall be eligible to join year two to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,825.00 per year** to cater for research project supervision and dissertation examination.

3. POSTGRADUATE DIPLOMA IN TAXATION

Target Audience

The programme is designed for any Bachelor's degree holder from an accredited institution of higher learning who would like to develop a career in Taxation.

The programme is offered on a non-residential basis and the duration is one-year full time.

Fees Structure

Successful applicants shall be required to pay **K2,550,000.00 for the entire programme** duration to cater for tuition and examinations.

Mode of delivery: Fridays, Saturdays and Sundays; from 8:00 am to 5:00 pm.

Venue: Blantyre

SCHOOL OF EDUCATION, COMMUNICATION AND MEDIA STUDIES

1. MASTER OF ARTS IN DEVELOPMENT COMMUNICATION

Applicants must have a Bachelor of Arts degree in Development Studies, International Development, Sociology, Community Development, Journalism, Media Studies, Mass Communication or any communication related discipline from an accredited university or institution of higher learning.

Applicants with a first degree and a pass in a field other than those specified above must possess at least two years' experience in a development or communication related field.

The programme is offered on a **non-residential** basis and the duration is 2 years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$2,750.00 per year** for domicile and SADC students and **US\$3,500.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

2. MASTER OF ARTS IN HEALTH AND BEHAVIOUR CHANGE COMMUNICATION

Applicants must have a Bachelor's degree in any of the following: Environmental Health, Communication, Health Promotion, Health Education, Journalism, Media Studies, Humanities or any other related field.

The programme is offered on a **non-residential** basis and the duration is 2 years full time.

Applicants who exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal, shall be eligible to join the second year to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$2,750.00 per year** for domicile and SADC students and **US\$3,500.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

Venues: Blantyre and Lilongwe* (***dependent on student numbers**)

3. MASTER OF ARTS IN MEDIA STUDIES

Applicants must have a Bachelor of Arts degree in Journalism, Media Studies, Mass Communication, Business Communication or any communication related discipline from an accredited higher education institution.

Candidates with a first degree and **at least a strong pass** in a field other than those specified above must possess at least two years relevant experience in a media, journalism or communication related field.

The programme is offered on a **non-residential** basis and the duration is 2 years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$2,750.00 per year** for domicile and SADC students. and **US\$3,250.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

Venues: Blantyre and Lilongwe* (***dependent on student numbers**)

4. MASTER OF ARTS IN PUBLIC RELATIONS

Applicants must have a Bachelor's degree in any of the following: Public Relations, Communication, Journalism, Media Studies, Humanities, or any other related field.

The programme is offered on a **non-residential** basis and the duration is 2 years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$2,750.00 per year** for domicile and SADC students and **US\$3,500.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

Venues: Blantyre and Lilongwe* (***dependent on student numbers**)

1. DOCTOR OF PHILOSOPHY (PhD) – RESEARCH BASED PROGRAMMES

- a) PhD in Civil Engineering
- b) PhD in Electrical and Electronics Engineering
- c) PhD in Engineering (Industrial Management)
- d) PhD in Engineering (Infrastructure Development and Management)
- e) PhD in Sustainable Energy

Applicants for PhD programmes MUST have a relevant Masters or MPhil degree from an accredited university or institution. The programme duration is 3 years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,333.34 per year** to cater for tuition, supervision and thesis examination.

2. MASTER OF PHILOSOPHY (MPhil) – RESEARCH BASED PROGRAMMES

- a) MPhil in Civil Engineering
- b) MPhil in Electrical and Electronics Engineering
- c) MPhil in Engineering (Industrial Management)
- d) MPhil in Engineering (Infrastructure Development and Management)
- e) MPhil in Sustainable Energy

Applicants for MPhil programmes MUST have any of the following engineering-related qualifications:

- a) A Bachelor's degree from an accredited university with a minimum of a credit in a relevant field.
- b) A Bachelor's degree from an accredited university with a strong pass and two years' work experience in a relevant field.
- c) An Honours degree from an accredited university with a minimum of second class in a relevant field.
- d) An Honours degree from an accredited university with a third class and one year work experience in a relevant field.

Candidates with a Bachelor's degree will be required to accumulate 60 credits of taught modules relevant to the selected MPhil research area.

The programme duration is two and half years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US \$2,750.00 per year** to cater for tuition, supervision, and thesis examination.

3. MASTER OF SCIENCE IN CIVIL ENGINEERING

Master of Science in Civil Engineering is a programme that equips students with advanced conceptual understanding, detailed factual knowledge, and specialist technical skills in Civil Engineering. The programme has common modules, and specialised elective modules leading to specialisation in any of the following five pathways:

- a) Water Engineering

- b) Structural Engineering
- c) Transportation Engineering
- d) Geotechnical Engineering
- e) Construction Management

Applicants must have a relevant Bachelor's degree in Civil Engineering or any related discipline from an accredited institution of higher learning. Candidates with a pass must have a minimum of 2 years of work experience. For applicants with grade point average (GPA) grades, the requirement is a minimum GPA of **2.5**.

The programme duration is 2 years full time offered on block release and non-residential basis.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US US\$3,250.00** for domicile and SADC students and, **US\$3,750.00** for other international students to cater for tuition, supervision and dissertation examination.

4. MASTER OF SCIENCE IN ELECTRICAL AND ELECTRONICS ENGINEERING ^{NEW}

The Master of Science in Electrical and Electronics Engineering is a taught and research-based degree where candidates are required to acquire high-level knowledge and carry out novel research in Computer engineering, Electrical and Telecommunications disciplines within the School of Engineering

Common Modules: Advanced Embedded Systems, Artificial Intelligence & Machine Learning, Research Methodology and Entrepreneurship.

Optional modules:

Electrical: Electric Drives, Electric Power System, Energy Economics and Renewable Energy Technologies.

Computer Engineering: Advanced Industrial Automation and IIoT, Computer Security Engineering, High Level Logic Design and Computer Vision and Image Processing.

Telecommunications: Optical Communication Networks, Information Theory & Coding, Telecommunication Networks and Wireless Communication and Networks

Applicants must have any of the following qualifications:

- a) Honours Bachelor of Science or Bachelor of Electrical, telecommunications or computer engineering or equivalent from an accredited university.
- b) Generic Bachelor of Science or Bachelor of Electrical, telecommunications, computer engineering or equivalent from a recognised institution of higher learning that includes a capstone project with two years relevant work experience.
- c) Professional qualification from an accredited university, in electrical and electronics, electronics and telecommunications engineering, electronics and computer engineering or equivalent, recognised by MUBAS as being equivalent to a relevant undergraduate degree.

The programme duration is 2 years full time offered on block release non residential basis

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US US\$3,250.00** for domicile and SADC students and, **US\$3,750.00** for other international students to cater for tuition, supervision and dissertation examination.

5. MASTER OF SCIENCE IN ENGINEERING (INFRASTRUCTURE DEVELOPMENT AND MANAGEMENT)

Applicants must at least have a Bachelor's degree in Applied Sciences, Engineering, Urban, District and Regional Planning, Architecture and Surveying or equivalent from any accredited higher education institution.

The programme duration is 2 years full time offered on block release and non-residential basis.

Applicants who exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal, shall be eligible to join the second year to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,250.00 per year** to cater for tuition, supervision and dissertation examination.

6. MASTER OF SCIENCE IN SUSTAINABLE ENERGY

This Masters Programme is part of the Transforming Energy Access - Learning Partnerships Project, implemented at MUBAS and other selected African Universities. The programme has 2 streams; Energy Access and Energy Management. The Energy Access stream is ideal for physical scientists, who, after the study would provide solutions to energy access challenges using physical sciences and engineering. On the other hand, the Energy Management stream is for those who are not necessarily physical scientists but are from fields such as commerce and social science.

- a) **Applicants for the Energy Access** stream must have a Bachelor's degree in Science, Engineering, Renewable Energy, Built Environment, or Technical Education or equivalent obtained from any accredited higher education institution.
- b) **Applicants for the Energy Management** stream must have a relevant Bachelor's degree in Science, Engineering, Built Environment, Renewable Energy, Technical Education, Commerce, or Social Science or equivalent obtained from any accredited higher education institution.

The programme duration is 2 years offered on block release and non-residential basis.

Applicants who exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal, shall be eligible to join the second year to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,250.00 per year** to cater for tuition, supervision and dissertation examination.

SCHOOL OF SCIENCE AND TECHNOLOGY

1. DOCTOR OF PHILOSOPHY (PhD) - RESEARCH BASED PROGRAMMES

- a) PhD in Information Systems
- b) PhD in Information Technology
- c) PhD in Applied Mathematics
- d) PhD in Applied Statistics

- e) PhD in Environmental Protection and Management
- f) PhD in Industrial Process Technology
- g) PhD in Renewable Energy
- h) PhD in Water Resources Management
- i) PhD in Environmental Health
- j) PhD in Public Health Engineering
- k) PhD in Occupational Safety and Health

Applicants for PhD programmes MUST have a relevant Masters or MPhil degree from an accredited higher education institution.

The PhD programme duration is 3 years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US US\$3,333.34 per year** to cater for tuition, supervision and thesis examination.

2. MASTER OF PHILOSOPHY (MPhil) - RESEARCH BASED PROGRAMMES

- a) MPhil in Information Systems
- b) MPhil in Information Technology
- c) MPhil in Applied Mathematics
- d) MPhil in Applied Statistics
- e) MPhil in Environmental Protection and Management
- f) MPhil in Industrial Process Technology
- g) MPhil in Renewable Energy
- h) MPhil in Water Resources Management
- i) MPhil in Environmental Health
- j) MPhil in Public Health Engineering
- k) MPhil in Occupational Safety and Health

Applicants for MPhil. programmes MUST have, any of, the following qualifications in a relevant field

- a) A Bachelor's degree from an accredited university with a minimum of a credit in a relevant field.
- b) A Bachelor's degree from an accredited university with a strong pass and two years' work experience in a relevant field.
- c) An Honours degree from an accredited university with a minimum of second class in a relevant field.
- d) An Honours degree from an accredited university with a third class and one year work experience in a relevant field.

Candidates with a Bachelor's degree will be required to accumulate 60 credits of taught modules relevant to the selected MPhil research area.

The programme duration is two and half years full time.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US \$2,750 per year** to cater for tuition, supervision, and thesis examination.

3. MASTER OF SCIENCE IN DATA ANALYTICS

The Master of Science in Data Analytics aims to equip students with advanced expertise

in data analytics for analysing problems and decisions that can be answered by data. The specialised areas include AI, machine learning, data science, data governance, data visualisation, cloud computing and big data, advanced techniques, programming toolkits, and industrial and societal application scenarios.

Applicants must have a relevant Bachelor's degree in Information Technology/Systems, Computer Science, Business and related fields from any accredited higher education institution. Applicants having other degrees should have work experience in data management and analysis.

The programme duration is 2 years offered on block release and non-residential basis.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,250.00 per year** for domicile and SADC students and **US\$3,750.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

4. MASTER OF SCIENCE IN ENVIRONMENTAL PROTECTION AND MANAGEMENT

Applicants must have a relevant Bachelor's degree in Pure, Natural or Applied Sciences or any other related field obtained from any accredited higher education institution.

The programme duration is 2 years offered on a non-residential basis.

Applicants who exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal, shall be eligible to join the second year to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,250.00 per year** for domicile and SADC students and **US\$3,750.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

Research fees for students who want to conduct their research using University laboratory will depend on the type of research.

5. MASTER OF SCIENCE IN SANITATION

Applicants MUST have a relevant Bachelor's degree in any Pure, Natural or Applied Sciences or any other related field obtained from an accredited institution of higher learning.

The programme duration is 2 years offered on a non-residential basis.

Applicants who exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal, shall be eligible to join the second year to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,250.00 per year** for domicile and SADC students and **US\$3,750.00** for other international students to cater for tuition, research project supervision and dissertation examination.

Research fees for students who want to conduct their research using University laboratory will depend on the type of research.

6. MASTER OF SCIENCE IN WATER RESOURCES MANAGEMENT (MWRM)

Applicants must have a relevant Bachelor's degree in Pure, Natural or Applied Sciences or any other related field obtained from any accredited higher education institution.

The programme duration is 2 years offered on a non-residential basis.

Applicants who exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal, shall be eligible to join the second year to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,250.00 per year** for domicile and SADC students and **US\$3,750.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

Research fees for students who want to conduct their research using a University laboratory will depend on the type of research.

7. MASTER OF SCIENCE IN ENVIRONMENTAL HEALTH (MEH)

Applicants must have a Bachelor's degree with an average grade of at least **50%**. The average grade is computed based on final year grades. For applicants with grade point average (GPA) grades, the requirement is a minimum GPA of **2.0**. The applicant must have specialised in Environmental Health, Public Health or any other related field from any accredited higher education institution.

The programme duration is 2 years offered on a non-residential basis.

Applicants who exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal, shall be eligible to join the second year to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,250.00 per year** for domicile and SADC students and **US\$3,750.00 per year** for other international students to cater for tuition, research project supervision and dissertation examination.

Research fees for students who want to conduct their research using University laboratory will depend on the type of research.

8. MASTER OF SCIENCE IN OCCUPATIONAL SAFETY AND HEALTH (MOSH)

Applicants must have a Bachelor's degree in a discipline related to occupational safety and health such as Environmental Health, Environmental Engineering, Chemistry or any relevant subject area, with an average grade of at least 50%.

The programme duration is 2 years offered on a non-residential basis.

Applicants who exited the programme with a **Postgraduate Diploma**, on grounds other than academic withdrawal, shall be eligible to join the second year to complete the dissertation, provided it is within three years after exiting.

Fees Structure

Successful applicants shall be required to pay the Malawi Kwacha equivalent of **US\$3,250.00 per year** for domicile and SADC students and **US\$3,750.00** for other international students

to cater for tuition, research project supervision and dissertation examination.

Research fees for students who want to conduct their research using University laboratory will depend on the type of research.
